

Battery Powered Photoelectric Smoke Alarm

● Model: DG802

Photoelectric Sensing Technology

Red LED

Flashes every 30-40 seconds to indicate that the smoke alarm is operating

Test Button

Tests unit's electronic circuitry, horn and battery function

Description

The alarm is a battery operated smoke alarm, equipped with a photoelectric sensor, designed to alert you and your family to the dangers of smoke and fire.

The alarm includes a 9V, protecting you even during a power failure. This unit offers a 5-year limited warranty.

Consumer Benefits

The photoelectric smoke alarm is battery operated protecting you and your family even during power outages.

This unit does not require any wiring and can be installed in minutes. The alarm is equipped with a test button that allows you to test the alarm's electronic circuitry, horn and battery function.

Features and Benefits

- Test Button – Tests unit's electronic circuitry, horn and battery function.
- Blinking power indicator – Confirms unit is receiving power.
- Battery Operated (9V Battery Included) – Protects even during a power outage.
- Low Battery Indicator – Smoke alarm will chirp in the event of a low battery.
- Missing battery Guard – Cover resists closing unless battery is inside.
- Ideal for Cooking areas – Reduces unwanted alarms.
- Tamper Resist Locking Screw – Helps deter alarm tampering or theft.
